The Custom Light That Isn't.

Local, handcrafted and customised. **HEIDE** is a tribute to Melbourne's ground-breaking creative heritage and is handcrafted from locally sourced materials. It was borne from a vision of wanting to provide tailoring – without all the tailoring, yet still marry an exceptional level of refined aesthetic and function. And the best thing about having a 'custom-non-custom' light? The lead times and approachable price are a work of art in themselves.
