MEERKAT DOWNLIGHT

Fantastic for Retail
Environments

Focus In.

Why did we call this fitting the **MEERKAT**?

Honestly, we cannot remember. Maybe because head and shoulders, the **MEERKAT** is the #1 choice for the function and economically savvy.

When aesthetics, output and value are in your sights then the **MEERKAT** downlight is a fitting to focus on. It's designed to be versatile in its applications and beam options (providing excellent wash coverage) and to give your space the punch it deserves – not that your space deserves an actual punch, of course.
