M	Ø 110 x 241

Maximum Minimalism.

Upon conception and development, the **ROLL** luminaire family was all about what we left out so that we could fit more in. While the Roll XS and Roll S puts the 'mini' in 'minimalism', the Roll L and Roll XL versions are timelessly stylish, refined, versatile and compact in their look – unobtrusive with the option to dim.

Whether you're using for its light output and punch or minimal aesthetics – you're sure to make the most out of your space with the **ROLL** family.
